

# Kaiser Permanente Colorado Commercial Formulary

## Denver/Boulder, Mountain, Northern and Southern Colorado

### HMO, DHMO, HDHP

#### (List of Covered Drugs)

---

**Please Read:** This document contains information about the drugs we cover when you participate in a Kaiser Permanente plan being offered on or off the Colorado health insurance marketplace, *Connect for Health Colorado*. This formulary applies only to outpatient drugs provided to members for self-administration, and does not apply to medications used in inpatient settings or medications administered in a doctor's office or infusion center. The listing does not provide information regarding specific coverage, including specific exclusions, copays, or coinsurances. That information can be found by referring to the *Evidence of Coverage or Individual Membership Agreement*. If you have specific questions about your prescription benefits, please contact Member Services at **1-888-681-7878** (toll free), or TTY for the hearing and speech impaired call **1-800-521-4874** (toll free).

---

#### **What is the Kaiser Permanente Colorado Marketplace Formulary?**

A formulary is a list of covered drugs chosen by a group of Kaiser Permanente physicians and pharmacists known as the Pharmacy and Therapeutics Committee. This committee meets regularly to evaluate and select the safest, most effective medications for our members. This formulary meets the requirements outlined under the Federal regulations for Qualified Health Plans being offered on or off Colorado health insurance marketplace, *Connect for Health Colorado*.

#### **What drugs are covered?**

Kaiser Permanente will generally cover brand-name (when no generic is available), generic and specialty tier drugs listed on our formulary as long as the drug is medically necessary, the prescription is filled at a Kaiser Permanente or a participating network pharmacy, and other plan rules are followed.

Drugs listed on the formulary are covered by your prescription drug benefit when dispensed for use in an outpatient setting. Some drugs have restrictions. Using drugs on the formulary helps maintain quality care for our members while keeping the cost of prescription drugs affordable.

#### **What drugs are not covered?**

Drugs not listed on the formulary or listed as a non-preferred tier (also referred to as "non-formulary" drugs) are not covered unless a Kaiser Permanente or affiliated provider determines that they are medically necessary. Prescriptions for non-formulary medications may be filled at Kaiser Permanente or a participating network pharmacy. However, the full price of the drug will generally apply unless a medically necessary exception has been provided by your Kaiser Permanente or prescribing provider.

#### **Are there any restrictions on the drugs covered on the formulary?**

*All drug product strengths, formulations, and package sizes &/or types of a formulary drug may not be included on the formulary, check with your Kaiser Permanente pharmacist for clarification, if needed.*

Some covered drugs may have additional requirements or limits on coverage. For these drugs, Kaiser Permanente may require you or your provider to get an approval from us before you fill your prescription. Additionally, when there is a national shortage of a drug, we may limit the quantity of the drug dispensed.

The type of restrictions that may require an approval or may be limited include:

Restricted to Specialty: A drug that needs to be written by a provider specialized in the treatment of certain conditions for the drug to be covered under the pharmacy benefit. For example, Afinitor®, a drug used for cancer, may be restricted to providers specialized in Oncology.

Prior Authorization: Our plan may require you or your provider to obtain a prior authorization for certain drugs. This means that you will need to have approval from our plan before you fill your prescription in order to have it covered under your benefit. If you do not get approval, we may not cover the drug.

Quantity Limits or Quotas: For certain drugs, Kaiser Permanente may limit the drug quantity that is covered. We may also limit the amount of medication dispensed to a certain days supply. For example, Kaiser Permanente provides 18 doses per prescription for rizatriptan (generic Maxalt®) and limits drugs like Tarceva® to a 30 day supply. Additionally, when there is a national shortage of a drug, we may limit the quantity of the drug dispensed per prescription per copayment.

Restricted to Benefit: Some drugs are not covered unless the individual prescription benefit specifically covers such medications. For example, Viagra® and other drugs used for sexual dysfunction are not covered unless your prescription benefit specifically covers them.

Step Therapy: Some medications require a similar therapy be attempted first. For example, before lansoprazole, used for stomach problems, can be dispensed, a drug such as omeprazole must be tried first.

Restricted to a specific age: Some medications may be restricted to a certain age or age range.

### **What is a generic drug?**

Our plan covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name and specialty-tier drugs. In most cases, a generic equivalent is dispensed when available. Members will be notified at the time of service when a generic equivalent is dispensed in place of a brand-name drug.

### **What is a brand-name drug?**

Brand-name drugs are manufactured and sold by the drug company that originally researched and developed the drug. When the patent on a brand-name drug expires, other drug companies may manufacture and sell an FDA-approved generic version of the drug with the same active ingredient(s) at lower prices.

### **What are specialty-tier drugs?**

Drugs listed as a specialty-tier drug are very high-cost drugs.

### **What drugs are eligible to be mailed from the mail order pharmacy?**

*All drug product strengths, formulations, and package sizes &/or types of a formulary drug may not be included on the formulary, check with your Kaiser Permanente pharmacist for clarification, if needed.*

Most drugs can be mailed from our mail order pharmacy. Some drugs (for example, high cost drugs or drugs that require special handling) may not be eligible for mailing. Drugs cannot be mailed outside the United States.

Your prescription drug plan may allow you to receive an extended day supply (e.g. 90 day supply) of maintenance medications for only one or two copayments if you use the mail order pharmacy. A maintenance medication is one that Kaiser Permanente has determined would be taken long term and for chronic conditions for the majority of the population. Examples would include medications taken for high blood pressure, diabetes, high cholesterol, or asthma.

You can order refills through our mail-order service online at [kp.org/refill](http://kp.org/refill) or by phone or mobile app. There is no extra charge for mail order. The appropriate cost share (according to your prescription drug benefit) will apply.

### **Are Over-the-Counter (OTC) items covered on the formulary?**

Plans that include essential health benefits are required to provide certain preventive over-the-counter items at no cost to our members when prescribed by a provider. You will not find these drugs on our formulary list and they may have quantity limitations. The types of over-the-counter items that are covered include:

**Aspirin** – Covered when used for the prevention of cardiovascular disease, when the potential harm of an increase in gastrointestinal hemorrhage is outweighed by a potential benefit of a reduction in myocardial infarctions (men aged 45-79 years; women age 55 to 79 years). Covered after 12 weeks of gestation in women who are at high risk for preeclampsia.

**Oral Fluoride** – Covered for dental caries in preschool children and should be prescribed at currently recommended doses to preschool children older than 6 months whose primary water source is deficient in fluoride.

**Folic Acid** – Covered for woman planning or capable of getting pregnant.

**Iron Supplements** – Covered for asymptomatic children aged 6 to 12 months who are at increased risk for iron deficiency anemia.

**Female Contraceptives** – Covered over-the-counter items such as spermicides and sponges.

**Vitamin D** – Covered for the prevention of falls in community-dwelling adults (adults not living in an assisted living facility, adults living at home in the community) aged 65 years or older who are at increased risk of falls.

**Colonoscopy (bowel) preparation medications** – Covered when medically necessary when associated with a preventive colonoscopy.

**Nicotine Replacement** – Covered over-the-counter items for tobacco cessation products such as nicotine patches, gum or lozenges if your plan allows.

*All drug product strengths, formulations, and package sizes &/or types of a formulary drug may not be included on the formulary, check with your Kaiser Permanente pharmacist for clarification, if needed.*

## **Kaiser Permanente Formulary**

Kaiser Permanente may add or remove drugs from the formulary during the year. Our Pharmacy and Therapeutics Committee thoroughly reviews medical literature and selects drugs for our formulary based on how safe and effective they are, among other factors. Note: The presence of a drug on our drug formulary does not necessarily mean that your provider will prescribe it for a particular medical condition.

The formulary list that begins on page five provides coverage information about some of the drugs covered by our plan.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g. ALBENZA) and generic drugs are listed in lower-case italics (e.g. *amoxicillin*).

The second column, "Drug Tier," will indicate what tier number the drug is in. Drugs on our formulary are categorized in one of four tiers.

**Tier 1** – Preferred Generics

**Tier 2** – Preferred Brands

**Tier 3** – Non Preferred (Generics and Brands)

**Tier 4** – Specialty

Note: Not all plans have coverage for each tier designated. Also some drugs are required to be covered at no cost to members. Refer to your *Evidence of Coverage or Individual Membership Agreement* for information on specific drug coverage for your plan.

The third column of the chart will indicate any requirements or limits for that drug.

**AG** = A drug that is restricted to a specific age or age range.

**LD** = A drug that can only be dispensed by certain Specialty Pharmacies, also known as Limited Distribution Pharmacies.

**MD** = A drug that is required to be written by a provider specialized in the treatment of certain conditions.

**MO** = A drug that is considered to be a maintenance medication and is available at an extended day supply through the mail order pharmacy.

**PA** = A drug that requires specific medical criteria be met and requires approval by the plan prior to being dispensed for benefit.

**QL** = A drug that has a quantity limit or is limited to a specific days supply.

**RB** = A drug that is restricted to a certain benefit for coverage and the cost share may be different than the tier listed.

**ST** = A drug that requires a similar therapy be tried prior to dispensing for prescription benefit

Note: Some drugs have multiple tiers listed because these drugs have multiple dosage forms that may be covered under different tiers or the tiers may vary depending on the specific benefit.

*All drug product strengths, formulations, and package sizes &/or types of a formulary drug may not be included on the formulary, check with your Kaiser Permanente pharmacist for clarification, if needed.*

## NONDISCRIMINATION NOTICE

Kaiser Foundation Health Plan of Colorado (Kaiser Health Plan) complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Kaiser Health Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex. We also:

- Provide no cost aids and services to people with disabilities to communicate effectively with us, such as:
  - Qualified sign language interpreters
  - Written information in other formats, such as large print, audio, and accessible electronic formats
- Provide no cost language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages

If you need these services, call **1-800-632-9700** (TTY: **711**)

If you believe that Kaiser Health Plan has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance by mail at: Customer Experience Department, Attn: Kaiser Permanente Civil Rights Coordinator, 2500 South Havana, Aurora, CO 80014, or by phone at Member Services: 1-800-632-9700.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at: U.S. Department of Health and Human Services, 200 Independence Avenue SW., Room 509F, HHH Building, Washington, DC 20201, 1-800-368-1019, 1-800-537-7697 (TDD). Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>.
